Your Supply Chain Management Solutions.

LEANSTAR TRADING

about us

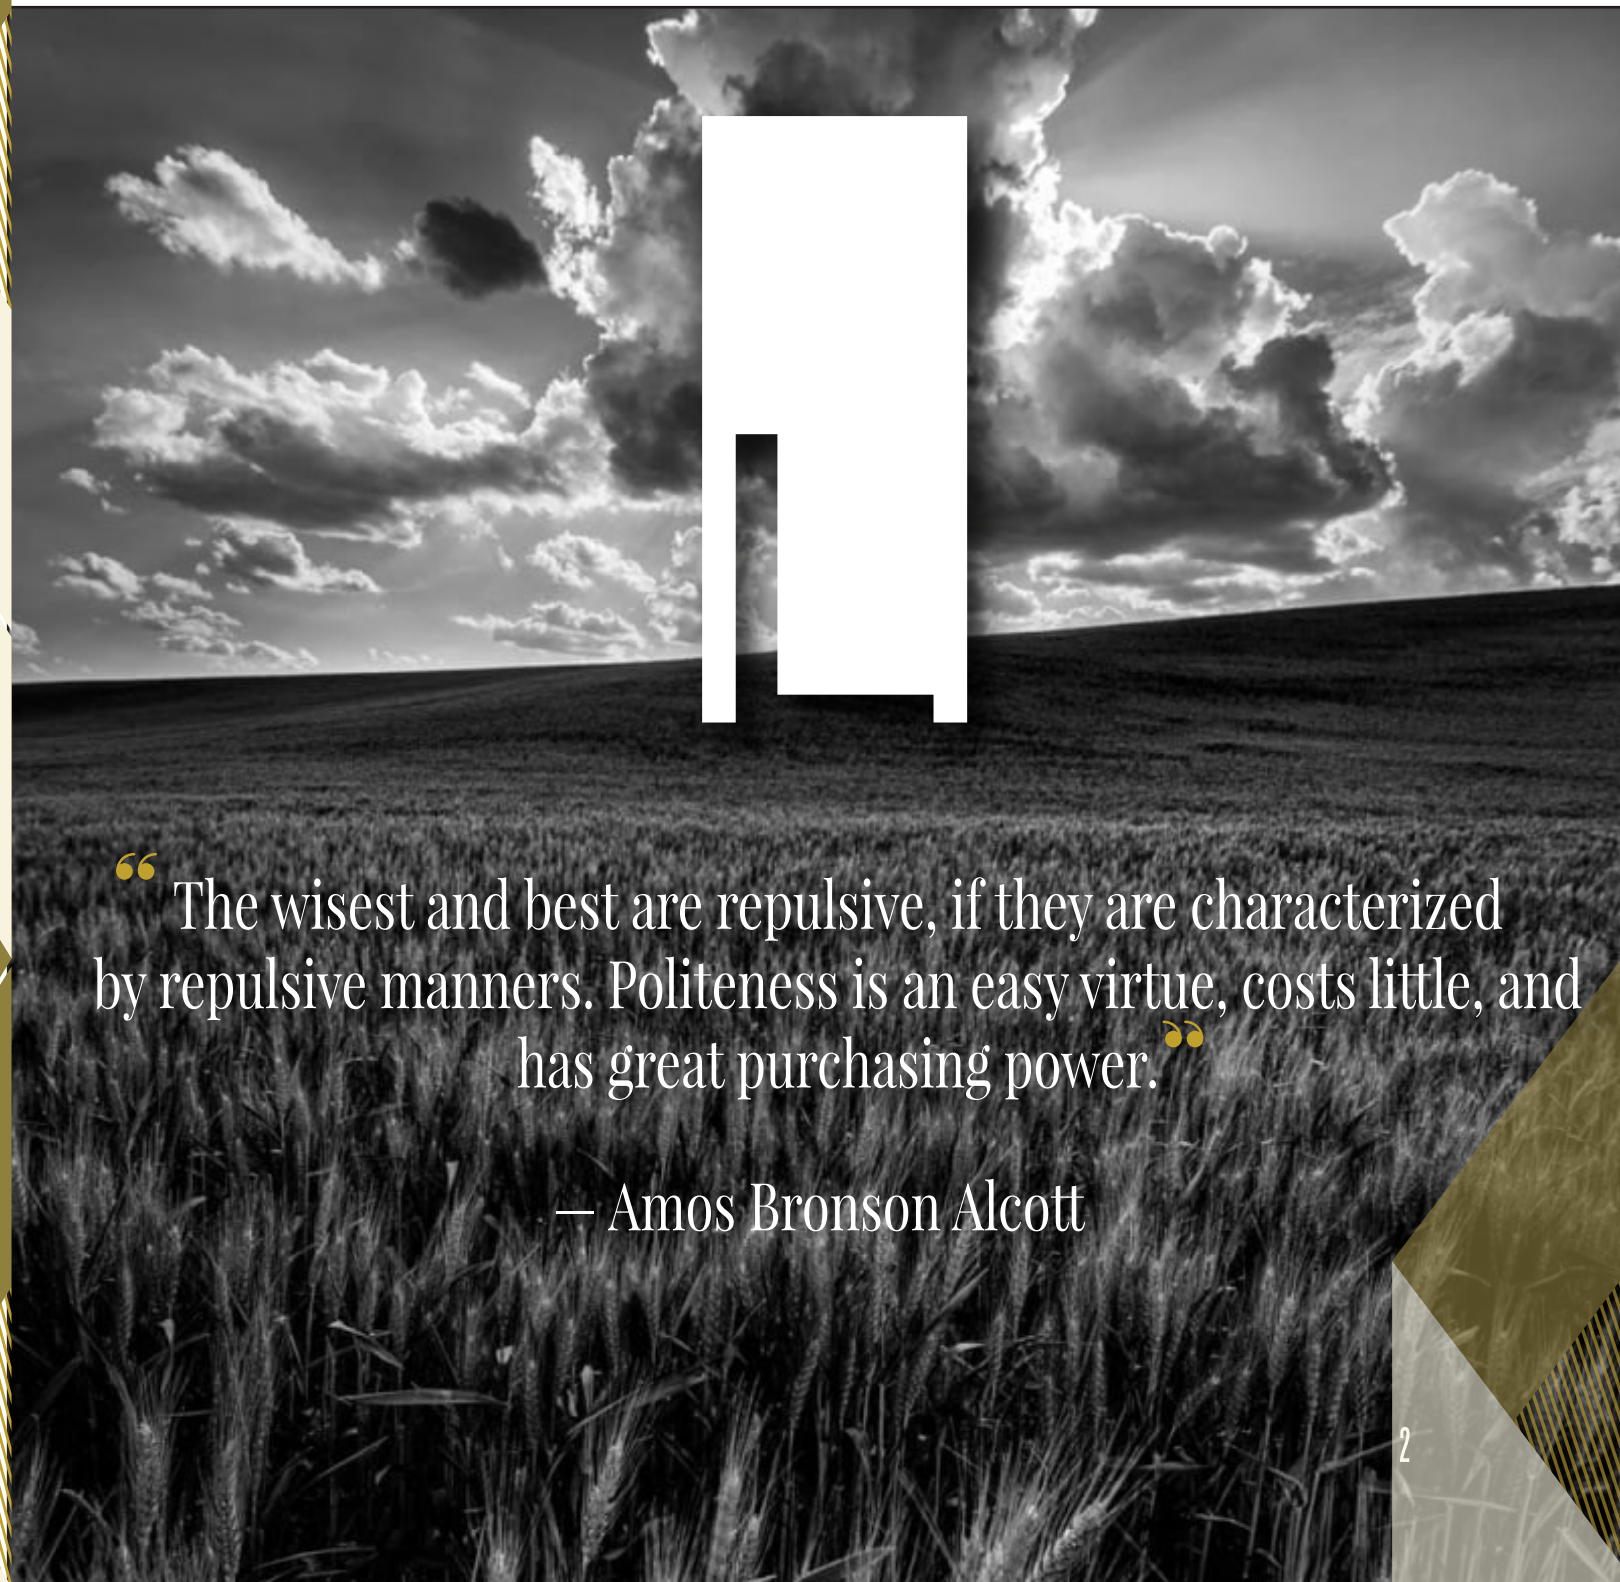

Leanstar Trading is a merchant trading, procurement and supply company with world-class credit and financing capabilities. It is a Ugandan company that was started to ease the procurement process for both startup and corporate companies in Africa.

With the growing demand for better services, we have grown to partner with other manufacturing companies all over the world, expanding our relationships and operations.

We offer a one-stop shop for all commercial product sourcing. While most supply companies use the services of a retailer, distributor, stock product supplier, overseas trading firms and factories, we combine all of that into one.

In addition, we endeavour to develop a culture reflective of our core values and thus set behavioural benchmarks for our people.

We trade a broad spectrum of commodities across agricultural, metal and energy markets and have strong partnerships with the world's leading suppliers.

“The wisest and best are repulsive, if they are characterized by repulsive manners. Politeness is an easy virtue, costs little, and has great purchasing power.”

— Amos Bronson Alcott

Values

Why Use Leanstar Trading.

We have developed systems that filter all forms of product lists and suppliers, increasing efficiency, in our sourcing process and sustainability, and making it easy to provide the most competitive prices.

With the rising demand for procurement support services, Leanstar Trading is confident about providing world-class services

Client Focus.

We value client relationships highly. We listen to clients and respond to their needs with precision and efficiency. We strongly encourage client-partner relationships that:

- Dedicate time to project management
- Invest time in developing a relationship with you, not just for doing business; but for the long term future.
- Ensure personal involvement in all client meetings
- Understand the clients' technical and financial requirements on every project and supply we may have at hand.

We focus on solutions that create value for our clients. We ensure our clients critically understand the breakdown of what we are delivering.

Our Supply Market Information is updated regularly and augmented by gathering vital information from several sources. These sources are as follows:

- Industry Profiling.
- Public Financial Data Banks.
- Public Records and Government Registries.
- Our Data base

We also serve as an instrument in helping businesses and organizations of various sizes and industries to manage corporate spending, increase savings, reduce costs, and maximize supplier relationships. Starting with a small number of clients, the firm's clientele has grown to include,

- United Nations.
- Non-Governmental Organizations,
- Inter - Governmental Organizations,
- Industrial Groups,
- Government Ministries.

VISION

To become the most reliable chain-supply solution provider in Africa.

This can only be done by ensuring we provide our clients with the exact specifications of the products that are required and the best quality that there is on the market. In addition to that, we always deliver within the required time.

MISSION

To provide essential value to your supply chain in order to advance and overcome the obstacles of doing international trade through technology.

We do this by dealing in the importation/exportation of general merchandise from all over the world by ensuring delivery and installation of any product on time.

OBJECTIVES

- To enhance supplier performance.
- To reduce financial risk.
- To seamlessly merge technology into traditional sourcing processes.
- To increase technical optimization of product specifications to eliminate error.

"You won't find it difficult to prove that battles, campaigns, and even wars have been won or lost primarily because of logistics"

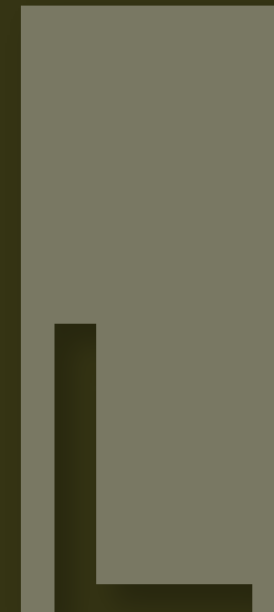

-General Dwight D. Eisenhower

REMARKS

Leanstar Trading
operates on core values that extend beyond the boardroom.
We believe it is our responsibility to make a difference and enrich the lives of people in our communities across the globe. We are ethically and environmentally considerate in our operations and uphold the highest partner standards.
We embrace those activities that have a positive impact on society, the environment and the economy.
